**NOMAD WINS OVER \$28M in CONTRACTS FOR QUEENSLAND OPERATIONS IN THE PAST MONTH.**

*Nomad is pleased to announce that Nomad Modular Building Queensland and Halley Homes have secured over \$28M of work has been awarded to these Business Units. The various contracts include accommodation units, modular housing, rental sales, specialty commercial buildings and education facilities. The new works commence shortly and are expected to be completed early in the 1<sup>st</sup> quarter of the 2010-2011 financial year. The source of the contracts is from existing and new clients demonstrating the confidence in Nomad to deliver. The Groups work in hand now stands at approximately \$170 million.*

A general increase in demand in line with renewed activity in the resources, agricultural sectors, supporting infrastructure and housing is expected over the coming months as the global financial crisis diminishes, Nomad is positioning to take advantage of the new market conditions.

Rick Blair, Executive Chairman of Nomad Building Solutions said “that the appointment of Brett McDonald, CEO of the Eastern States operations, has given clients the confidence to commit to Nomad and I expect this to only increase. The professionalism of the team and the quality of product produced will see the Eastern States Business Units grow in the coming years”.

Brett McDonald said, “Our new organisational structure will see productivity increases and a decrease in our overhead once fully implemented. We aim to increase our new prototypes with client driven demand. Our design services and product knowledge will secure our position and growth in our market.”

Mr. McDonald also believes that increased product diversification from several new suppliers has helped reduce construction constraints that will enable greater capacity for growth through increased efficiencies.

Nomad Building Solutions is a diversified group listed on the Australian Stock Exchange. Nomad Modular Building and Halley Homes are wholly owned businesses of Nomad Building Solutions, specialising in remote and regional.
