## **Rapley Wilkinson wins \$11million project in Kununurra**

Nomad Building Solutions Limited (“Nomad”) provides the following update to the market.

Nomad Building Solutions Limited (NBS) advises that its wholly owned subsidiary, Rapley Wilkinson Pty Ltd, has been awarded a project with the Western Australian Department of Housing and Works valued at \$11 million. The project is to build 30 residential houses in the East Kimberley town of Kununurra in northern Western Australia. This project is scheduled to commence construction within the next two weeks and will be completed by July 2011.

This award comes in addition to a contract of \$6 million also awarded to Rapley Wilkinson by the Department of Housing and Works in May 2010 to build 30 seniors units in Geraldton with work now well underway.

Both of these projects are significant for the company, positioning it to take advantage of future opportunities around the Ord River Expansion Project as well as the Oakajee Port and Rail Project.
